

Walking the coastal path?

Coastal location plates tell you where you are and give a grid reference.

Remember:

- Check the **weather** and **tides** before you go
- Wear suitable **clothing** and **footwear**
- Stay away from **cliff edges**
- Keep your **dog on a lead** at the top of cliffs
- Take a **mobile phone** with you

If you see anyone in difficulty call **999** and ask for the **Coastguard** – use the coastal location plates to tell them where you are.
